SUBJECT INDEX

Acidity
Application of in situ TG to characterize catalyst acidity 87
Adsorption
Application of in situ TG to characterize catalyst acidity 87
Alginate
Thermal and electrical studies on some metal alginate compounds 13
Ammonium nitrate
DSC studies on the effect of particle size on NH_4NO_3 at temperatures between 25 and 100°C 219
Apparatus
TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63
Atmosphere
Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329

Barium compound
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141
Bauxite
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Binary system
Mixing properties in the continuous solid solution of the system KNO_3–$NaNO_3$ 1
Bismuth citrate
Thermal decomposition of anhydrous bismuth citrate 257
Blend
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Thermal properties of wholly aromatic copolyamides and their blends 277
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Boehmite
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Borate
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Branching
A DSC method of measuring short-chain branching distribution in linear low density polyethylene 167

Calcium carbonate
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Calcium citrate
Thermal decomposition of calcium citrate tetrahydrate 243
Calcium fluoride
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Calorimetry
Mixing properties in the continuous solid solution of the system KNO_3–$NaNO_3$ 1
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Influence of inorganic ions on the enthalpies of solution of β-cyclodextrin in aqueous solutions 205
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Carboxylate bridge
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329

Catalyst
Application of in situ TG to characterize catalyst acidity 87
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
Chelate
Thermal and electrical studies on some metal alginate compounds 13
Citrate
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Conductivity
Thermal and electrical studies on some metal alginate compounds 13
Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297
Copolymer
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Thermal properties of wholly aromatic copolyamides and their blends 277
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Copper compound
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329
Coupled technique
Application of in situ TG to characterize catalyst acidity 87
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Crystallization
DSC studies on the effect of particle size on NH_4NO_3 at temperatures between 25 and 100°C 219
Cyclodextrin
Influence of inorganic ions on the enthalpies of solution of β-cyclodextrin in aqueous solutions 205
Decomposition
Thermal and electrical studies on some metal alginate compounds 13
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Dehydration
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Desorption
Application of in situ TG to characterize catalyst acidity 87
Dioxouranium
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269
DSC
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
A DSC method of measuring short-chain branching distribution in linear low density polyethylene 167
Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175
DSC studies on the effect of particle size on NH_4NO_3 at temperatures between 25 and 100°C 219
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269

Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329

DTA

Thermal and electrical studies on some metal alginate compounds 13

The kinetics of bulk polymerization of itaconic acid derivatives. Part 3. Mono-2-diphenyl and mono-4-diphenyl itaconates 25

The contrasting effects of γ-irradiation on the lattice transition and NH_4^+ decomposition thermodynamics in NH_4X zeolite. A DTA investigation 37

Thermal decomposition of low-grade high-silicon boehmite bauxite 97

Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107

Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223

Thermal decomposition of magnesium citrate 14-hydrate 231

Thermal decomposition of calcium citrate tetrahydrate 243

Thermal decomposition of anhydrous bismuth citrate 257

Thermal properties of wholly aromatic copolyamides and their blends 277

Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297

DTG

Application of in situ TG to characterize catalyst acidity 87

Thermal decomposition of low-grade high-silicon boehmite bauxite 97

Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107

Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223

Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269

Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly-(styrene-co-acrylonitrile) 283

Emulsion

Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187

Equipment

A new magnetic suspension coupling for microbalances 127

EVA

Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly-(styrene-co-acrylonitrile) 283

Evaporation

Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141

Excess molar enthalpy

Excess enthalpies of pentyl ethanoate–1-hexanol, pentyl ethanoate–*n*-nonane and pentyl ethanoate–1-hexanol–*n*-nonane at 298.15 K 199

Flame retardant

Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly-(styrene-co-acrylonitrile) 283

FTIR

Thermal and electrical studies on some metal alginate compounds 13

Gamma irradiation

The contrasting effects of γ-irradiation on the lattice transition and NH_4^+ decomposition thermodynamics in NH_4X zeolite. A DTA investigation 37

Gas

TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63

Glass transition

DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75

Haematite

Thermal decomposition of low-grade high-silicon boehmite bauxite 97

Heat capacity

Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175

Heat of mixing

Mixing properties in the continuous solid solution of the system KNO_3–$NaNO_3$ 1

Heat of precipitation
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Heat of solution
Influence of inorganic ions on the enthalpies of solution of β-cyclodextrin in aqueous solutions 205
Heat of solvation
Thermochemistry of heteroatomic compounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Heat of transfer
Thermochemistry of heteroatomic compounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Heat of transition
Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175
Heat of vaporization
Thermochemistry of heteroatomic compounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Hydrogenation
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317

Intercalation
Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297
Iron compound
Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297
IRS
Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257

Isoperibol
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Isothermal
Standard polynomial method for derivatives: Application to non-isothermal and isothermal kinetics and computer programming for the Sharp–Wentworth and Freeman–Carroll Methods 47
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
Itaconate
The kinetics of bulk polymerization of itaconic acid derivatives. Part 3. Mono-2-diphenyl and mono-4-diphenyl itaconates 25

Kaolinite
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Kinetics
The kinetics of bulk polymerization of itaconic acid derivatives. Part 3. Mono-2-diphenyl and mono-4-diphenyl itaconates 25
Standard polynomial method for derivatives: Application to non-isothermal and isothermal kinetics and computer programming for the Sharp–Wentworth and Freeman–Carroll Methods 47
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Investigation of the kinetics of the reactions between sodium carbonate and oxides of transition metals 113

Latent heat
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141
Thermochemistry of heteroatomic compounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175
LDPE
A DSC method of measuring short-chain branching distribution in linear low density polyethylene 167
LLDPE
A DSC method of measuring short-chain branching distribution in linear low density polyethylene 167

LOI
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly-(styrene-co-acrylonitrile) 283
Long chain
Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175

Magnesium borate
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Magnesium citrate
Thermal decomposition of magnesium citrate 14-hydrate 231
Magnetic coupling
A new magnetic suspension coupling for microbalances 127
Maleic anhydride
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Mechanism
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Microbalance
A new magnetic suspension coupling for microbalances 127
Microcalorimetry
Excess enthalpies of pentyl ethanoate–1-hexanol, pentyl ethanoate–*n*-nonane and pentyl ethanoate–1-hexanol–*n*-nonane at 298.15 K 199
Microemulsion
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Miscibility
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Mixed oxide
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
Model
Mixing properties in the continuous solid solution of the system KNO_3–$NaNO_3$ 1
TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141
Montmorillonite
Application of in situ TG to characterize catalyst acidity 87
MS
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269

Non-isothermal
Standard polynomial method for derivatives: Application to non-isothermal and isothermal kinetics and computer programming for the Sharp–Wentworth and Freeman–Carroll Methods 47
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
Novel
A new magnetic suspension coupling for microbalances 127

OMVPE
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141
Organometallic
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141

Phase
TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63
Phase transition
DSC studies on the effect of particle size on NH_4NO_3 at temperatures between 25 and 100°C 219
Phosphorus compound
Thermochemistry of heteroatomic compounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Picric acid
Influence of inorganic ions on the enthalpies

of solution of β-cyclodextrin in aqueous solutions 205
Polyamide
Thermal properties of wholly aromatic copolyamides and their blends 277
Polyaniline
Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297
Polymer
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Conductivity of polyaniline and its derivatives incorporated within the cavities of the three dimensional [tris(trimethyltin)hexacyano-ferrate]$_\infty$ 297
Polymerization
The kinetics of bulk polymerization of itaconic acid derivatives. Part 3. Mono-2-diphenyl and mono-4-diphenyl itaconates 25
Polynomial
Standard polynomial method for derivatives: Application to non-isothermal and isothermal kinetics and computer programming for the Sharp–Wentworth and Freeman–Carroll Methods 47
PPO
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75
PPTA
Thermal properties of wholly aromatic copolyamides and their blends 277
Program
Standard polynomial method for derivatives: Application to non-isothermal and isothermal kinetics and computer programming for the Sharp–Wentworth and Freeman–Carroll Methods 47
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269
PVC
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Pyrolysis
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329

Reduction
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Refractive index
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211

SAN
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
SEM
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Semiconductor
Some properties of zinc tellurates 309
Silicon
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Sodium carbonate
Investigation of the kinetics of the reactions between sodium carbonate and oxides of transition metals 113
Sodium compound
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269
Solid
TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63
Solid solution
Mixing properties in the continuous solid solution of the system KNO_3–$NaNO_3$ 1
Solubility
Influence of inorganic ions on the enthalpies of solution of β-cyclodextrin in aqueous solutions 205
Some properties of zinc tellurates 309
Solvent
Thermochemistry of heteroatomic com-

pounds. Part 5. Enthalpies of vaporization and solvation of tetracoordinated phosphorous derivatives 153
Precipitation of calcium carbonate and calcium fluoride in microemulsions. Calorimetric investigation 187
Speed of sound
Ultrasonic velocities, specific volumes, isobaric thermal expansivities, isothermal compressibilities and isochoric thermal pressure coefficients for liquid tetramethylsilane from 224.86 to 273.28 K 325
Stability
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Stoichiometry
Thermal and electrical studies on some metal alginate compounds 13
Styrene
DSC study of the miscibility of PPO and sulphonylated PPO in blends with alternating copolymers of β-substituted styrene derivatives with maleic anhydride and with *N*-substituted maleimides 75

Tellurate
Some properties of zinc tellurates 309
Ternary blend
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Ternary system
Excess enthalpies of pentyl ethanoate–1-hexanol, pentyl ethanoate–*n*-nonane and pentyl ethanoate–1-hexanol–*n*-nonane at 298.15 K 199
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Some properties of zinc tellurates 309
Tetramethylsilane
Ultrasonic velocities, specific volumes, isobaric thermal expansivities, isothermal compressibilities and isochoric thermal pressure coefficients for liquid tetramethylsilane from 224.86 to 273.28 K 325
TG
Thermal and electrical studies on some metal alginate compounds 13
TG measurement of gas–solid reactions. The effect of the shape of the crucible on the measured rate 63
Application of in situ TG to characterize catalyst acidity 87
Thermal decomposition of low-grade high-silicon boehmite bauxite 97
Kinetics and mechanism of the reduction of ammonia-synthesis catalysts 107
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269
TGA
Investigation of the kinetics of the reactions between sodium carbonate and oxides of transition metals 113
Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223
Thermal properties of wholly aromatic copolyamides and their blends 277
Thermal, flame and mechanical behaviour of ternary blends of poly(vinyl chloride), poly(ethylene-co-viny acetate) and poly(styrene-co-acrylonitrile) 283
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329
Thermodynamics
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Some properties of zinc tellurates 309
TPD
Application of in situ TG to characterize catalyst acidity 87
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
TPR
Investigation concerning bimetallic catalysts using non-isothermal (TPR and TPD) and isothermal (pulse adsorption) methods. Part 1. Nickel–chromium non-supported catalyst 317
Transition
The contrasting effects of γ-irradiation on the lattice transition and NH_4^+ decomposition thermodynamics in NH_4X zeolite. A DTA investigation 37
Simultaneous determination of the heat capacity and the heat of the transitions for long-chain compounds with a heat-flux type DSC 175

Transition metal compound
Investigation of the kinetics of the reactions between sodium carbonate and oxides of transition metals 113

UNIFAC
Excess enthalpies of pentyl ethanoate–1-hexanol, pentyl ethanoate–*n*-nonane and pentyl ethanoate–1-hexanol–*n*-nonane at 298.15 K 199

UPS
Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223

Uranium compound
Thermoanalytical and pyrolysis–MS studies on dioxouranium(VI) complexes of sodium 1,2-naphthoquinone-1-monoxime-7-sulfonate 269

UV–vis
Synthesis, chemical characterization and thermal behaviour of 1,2-dithiooxalato-*S,S'* complexes of Ni(II), Pd(II) and Pt(II) with 2-amino-3-methylpyridinium 223

Valence
Thermal and electrical studies on some metal alginate compounds 13

XRD
Synthesis and properties of dimagnesium hexaborate heptadecahydrate 211
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243
Thermal decomposition of anhydrous bismuth citrate 257
Synthesis of the first example of a dinuclear syn–anti carboxylate-bridged copper(II) complex from a related hydrogen-bonded dinuclear copper(II) complex by thermal treatment 329

XRPD
Thermal decomposition of magnesium citrate 14-hydrate 231
Thermal decomposition of calcium citrate tetrahydrate 243

Yttrium compound
Experiment and modeling on the evaporation of β-diketonates of copper, yttrium and barium 141

Zeolite
The contrasting effects of γ-irradiation on the lattice transition and NH_4^+ decomposition thermodynamics in NH_4X zeolite. A DTA investigation 37
Application of in situ TG to characterize catalyst acidity 87

Zinc tellurate
Some properties of zinc tellurates 309
